

## PRESS RELEASE

### MOONWATCH DIALS

**The first exclusive book on Speedmaster dials**

**150 numbered copies**

“The OMEGA Speedmaster Moonwatch is one of a kind. No other watch has such a history or aura. Synonymous with perfection and innovation, it is completely timeless.”

“For this reason, it deserved an exclusive book, the aim of which is to present, for the very first time, the comprehensive heritage of Moonwatch dials.”

“This is therefore a unique initiative.”

**Anthony Marquié.**

In 2014, the book MOONWATCH ONLY created a buzz in the watchmaking world.

This resolutely innovative work presented itself as an essential guide to understanding the history of OMEGA's Speedmaster models. But given the glowing reviews from numerous fans and enthusiasts, the Speedmaster deserved even closer attention.

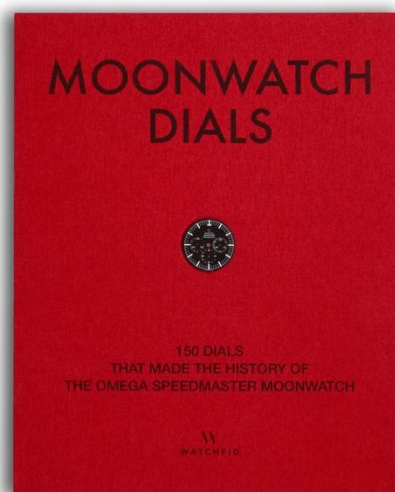

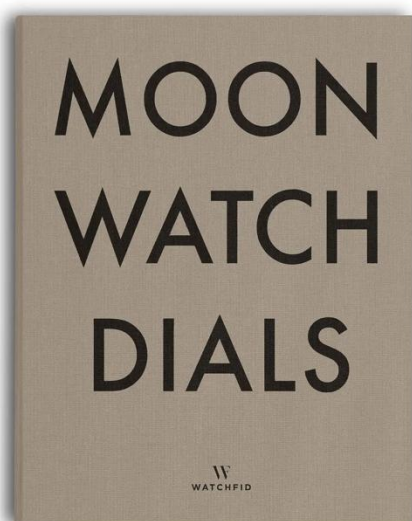

The adventure of Grégoire Rossier and Anthony Marquié, the two masters of the Speedmaster, could not end there. The treasures hidden within this now iconic model are revealed through the eyes of an aesthetic collector, whose trained eye can now examine in detail the exhaustive panorama of all Speedmaster Moonwatch dials from 1957 to the present day.

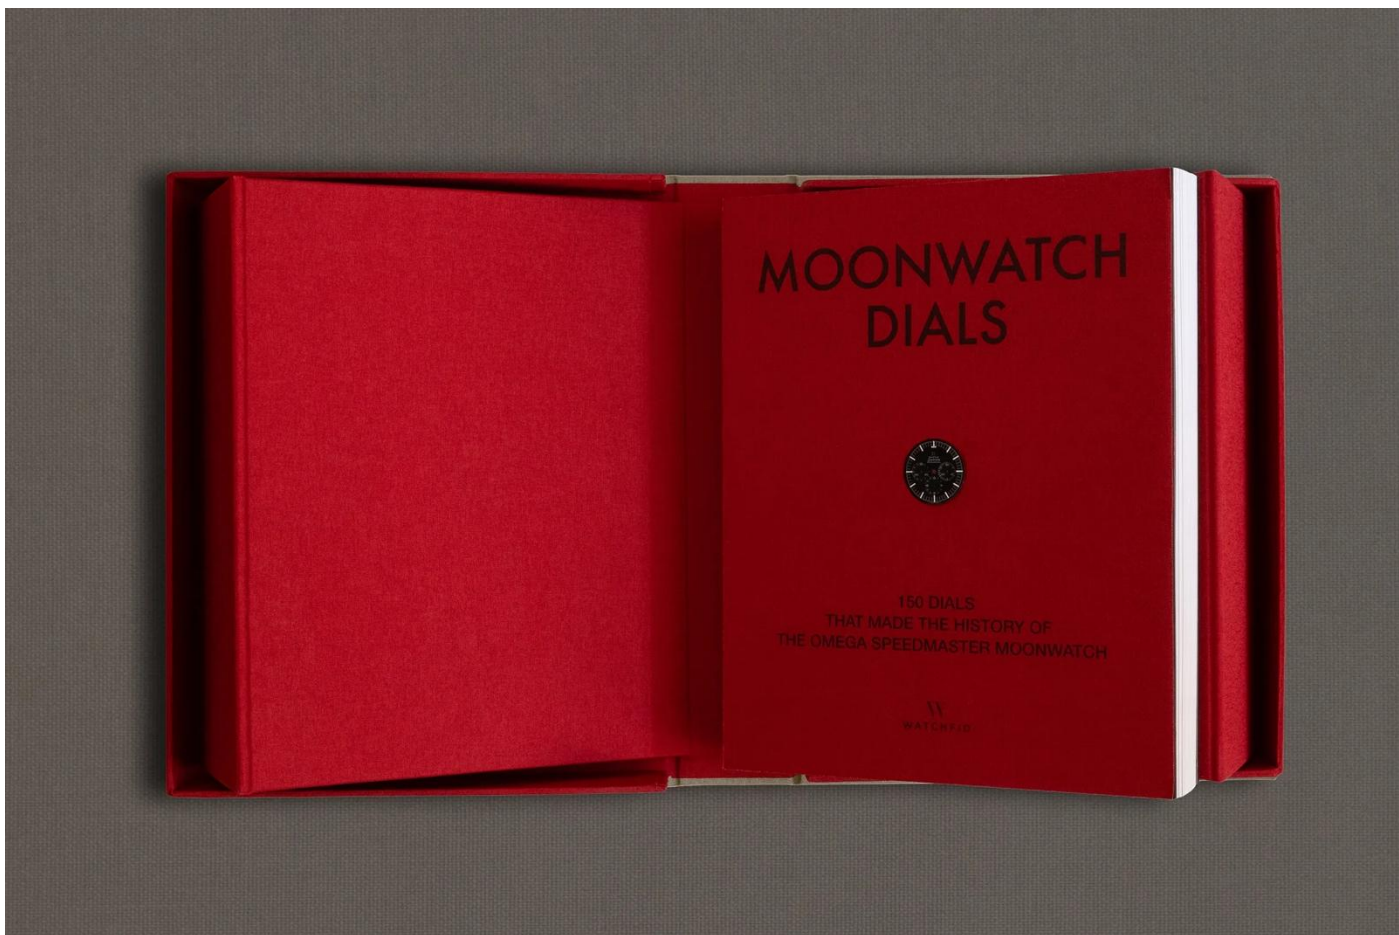

In total, all 150 dials produced for all Moonwatch models since their creation are revealed under the expert eye of Watchfid's watch photographer, Luca Garbati.

Portraits of each of these dials, brought to life through the use of transparency and unique papers, highlight this unique work, which is a first not only in the history of the model and the brand, but also in the world of watchmaking books.

It offers a new and artistic vision of the Speedmaster Moonwatch, tracing the chronological evolution of all the dials produced over more than 70 years, from its beginnings in 1957 to the present day.

This “archive” work, designed and crafted entirely by hand, comes in a box set containing the book, an exclusive poster, and an individual certificate, all numbered and signed. Only 150 copies have been produced worldwide.

## **MOONWATCH DIALS**

150 dials that made history in the OMEGA Speedmaster Moonwatch

Price : €1,450
